Get up on the dance floor
Dance with me baby - yeah
Get up on the dance floor
Rock it and move it - yeah
Rock it to the left
Move it to the right
Dance with me baby 'till the mornin' light
Come On , come on , come on
Once my baby jump starts
Look out for the dancin' queen - baby
Don't my lady look hot
In her tight hipster jeans
Pink sweater on top
And her belly button ring
Rockin' to the left
Movin' to the right
Dancin' with my baby 'till the mornin' light
Come on , come on , come on
Get up on the dance floor
Dance with me baby - yeah
Get up on the dance floor

Rock it and move it - yeah

Baby - she's rather unique

Some how she generates pure energy

Baby - My legs maybe weak

But you really haven't seen the best of me

(music interlude)

Get up on the dance floor

Rock it and move it -yeah

Get up on the dance floor

Rock it and move it - yeah

Don't my lady look hot

In her tight hipster jeans

Pink sweater on top

And her belly button ring

Get up on the dance floor

Get up on the dance floor

Get up on the dance floor
