Feel The Need

Lyrics /Music Don MacLeod/Adrian Stuckey

hardhatmusic@hotmail.com

It was Friday

It was snowing

A ray of sunshine entered my heart

Friday

Ended Saturday

You had me racing from the very start

They say don't talk to strangers

You can bend that rule it seems

With passion burning inside of me

I've been living on borrowed dreams

Chorus

If you still feel the need to need me

It's a feeling that's so hard to hide

If you still feel the need to want me

I'd love to have you here by my side

If you still feel the need to hold me

'till all the stars in the sky fade away

If you still feel the need to love me

Then come and let your senses play

It is Monday

Sun is shining

My feelings for you are far beyond high

Sunday

Became Monday

Can't live without you even if I try

Your the reason I'm breathing

You are where I know I belong

Some things in life were meant to be

You made me surrender when I was strong

Chorus
