Some kind of magic, I don't know what it is
Feels like there's something going on
Yesterday's gone, today I can see the sun
I know there's something going on

This time I know we're gonna get it right
This time I know it will be alright
I need a good thing, and I think it is you

I was down on the floor, I was on my own
Hanging over the phone, sitting all alone
I was waiting for someone, somewhere, someday

And then you came along when I missed a friend
Now I'm back on my feet, I can dance again
I'm not looking for someone, somewhere, someday

When you're around, you send my troubles away
I'm happy every single day
I needed something to believe in, now I
Know there are good times on the way

Then you came on, you gave me everything
One look and I could hear the bell ring
I need a good thing and I know that is you

I was down on the floor, I was on my own
Hanging over the phone, sitting all alone
I was waiting for someone, somewhere, someday

And then you came along when I missed a friend
Now I'm back on my feet, I can dance again
I'm not looking for someone, somewhere, someday

This time I know we're gonna get it right
Lost are the days when I was waiting for
Someone, somewhere, someday

I was down on the floor, I was on my own
Hanging over the phone, sitting all alone
I was waiting for someone, somewhere, someday

And then you came along when I missed a friend
Now I'm back on my feet, I can dance again
I'm not looking for someone, somewhere, someday
