Looking for the evil
And I will find it in you
I taste your blood
And it tears my heart apart
The breath they can't touch
Fills me with lie

Oh in my world
We feel the passion on the skin
Oh in my world
Till the end we try to find the
Diabolical way to love

We're lost in a dream
And it seems to be a nightmare
We see their life above the bloody red sky
The voice of an angel dies into the night

Oh in my world
We feel the passion on else skin
Oh in my world
Till the end we try to find the
Diabolical way to love

Kiss me again
Show me your love
Again
I will lose you
