-----  
Amazonia  
Amazonia  
From the heart of Amazonia  
Comes the very air we breathe  
But the people there are poor  
Can't see the forest for the trees  
In the time it takes to sing this song  
Another acre's gone  
Gotta save the Amazonia  
Before all of it is gone  
Amazonia  
Amazonia  
With so many people hungry  
All those children there to feed  
No use blaming the Sinterras  
They've got families  
Finding other ways to prosper  
Realize the damage done  
Educate them with an answer  
And take care of everyone  
In Amazonia  
Amazonia  
Amazonia  
Simple answers are much harder  
To accomplish than the rest  
And there's always someone getting hurt  
When you have to do what's best  
So put your imagination  
And your shoulder to the task  
Save the rain forest from ourselves  
There's no more we can ask
