Do you know me

Can you tell me so

Do you know how my

Motivations grow

And it's all right

That's something you ought to know about me

Are you into being on the line

Facing people one at a time

And it's all right

That's something you ought to know about me

You ought to know me

Well enough by now

Watching me growing

You are the why and the how

Ev'rything you show me

Making it so we need each other more and more

I'm not exactly altogether sure

That I could handle being left here all alone

I got a house honey

I need a home Yeah

We were speaking in diff'rent tongues

Still it mattered

We did what then was done

It's still all right

That's something you ought to know about me

Do you trust me

Do you trust yourself

Do you know when it's time to ask for help

It's all right

That's something you ought to know

'Cause it has to do with growing

That's something you ought to know about me
