(Stephen Stills)

When I get restless, what can I do?

When I need someone I think about you

I got to move on, not fade away

I'm only just growing a little each day

chorus:

(Hold it) I got to quit this runnin' 'round

(Hold it) Never gonna get rid of these blues

(Hold it) I got to find somebody to love

Slow me down, yeah

My, what a time (Look out now)

Sit yourself down, take a look around

Sit yourself down, take a look around

Sit yourself down, take a look around

Sit yourself down, take a look around

When I get older, mellowed down

Get myself settled on a patch of ground

Takin' it easy, live everyday

Me and the raven, we make our way

chorus

Sit yourself down, take a look around (x5)
