You're my boppin' highschool baby, dear and you're for
me

Yes, my boppin' highschool baby suits me to a T
Everytime I look at you, my eyes bulge out
Sayin' a-look here everybody and begin to shout
She's my boppin' highschool baby, loves me naturally
Yes, my boppin' highschool baby loves nobody but me

Well, things aren't always from-a A to B
And when it comes to boppin' she is heavenly
She just dances 'round the floor, nice and light
And when the music's quick then she can bop all night
She's my boppin' highschool baby, loves me naturally
Yes, my boppin' highschool baby loves nobody but me

Well, the boys all in school, they all envy me
'Cause my boppin' highschool baby loves no one but
me
But there's one thing that I'm sure about
That I won't lose my baby when school turns out
She's my boppin' highschool baby, loves me naturally
Yes, my boppin' highschool baby loves nobody but me
