Oh, father father
Tell me a story, tell me what to do
Oh, doctor doctor
Is there a cure for the young man's broken blues
And he said...

Love comes and goes, everybody knows
There ain't no such thing as an everlasting love
It comes and goes

Oh, darling darling
I've seen the look of a sadness in your eyes
Oh, in the morning
Do I stay in you arms or, baby, do I fly
And he said...

Love comes and goes, everybody knows
There ain't no such thing as an everlasting love
It comes and goes

And she said...

Love comes and goes, everybody knows
There ain't no such thing as an everlasting love, yeah
It comes and goes

Love comes
Love goes
Ooooooh, everybody knows...
