Get your rocks off  
Now baby don't you dare to stop  
Yeah you've yearning  
To start searching learning to let go  
From what holds you back  
Just learn to let it go  
Love can make it grow  
You gotta let it go  
You gotta let it go  
Go let it flow  
Gotta make it grow  
You gotta let it go go  
Go with the flow  
You're old enough to know  
Make up your mind girl  
Out there it's a wild world  
Open the door hit the dance floor  
The stuff that gets you off  
Out there there's plenty more  
Just gotta let it go  
Learn to make it flow  
Just go with the flow  
Gotta let it go  
Learn to make it flow  
You're old enough to know  
You want the front row  
Well then go with the flow  
Every nights a last show  
Now if I had a bit of money  
And used a little bit of sense  
I might come up with something  
That'll last till the end  
Lord I've tried so hard  
To make ends meet  
But always end up with nothing  
Where will this misery lead  
But til then I've learned to let it go  
Real love can make it grow  
Just go with the flow  
You want the front row  
Well then go with the flow

Every shows the last show  
Just dare to let it go  
Take a chance it'll flow  
You'll discover when you go  
Well once upon a time  
I thought everything would be alright  
Then at the blink of an eye  
Disaster struck at speed of light  
Lord I fell down to my knees  
God help me please  
Can't squeeze blood out of a rock  
Sometimes the bad times gotta stop  
No can't squeeze blood out of a rock  
Cos I've got nothing left to hock  
Life's such a short dance  
Like a one night romance  
Grow with your mistakes  
Skip the blow the fakes and flakes  
Cut yourself free from the chains of pain  
Learn to let it go  
Take a chance and it'll flow  
You gotta let it go  
You've gotta let it go  
Go with the flow  
Gotta let it go go go go go  
You're old enough to know
