I've been thinking a lot these days
And trying to make it work between us
I sense you slowly moving away
Not taking me with you
If all the years amount to nothing
With the future so unclear
Is this what it was all for?
Do you want me to leave here?

I'm done with waking up alone
I tired of being cast aside
Still hurting from your promises
The ones you couldn't keep and didn't try to
And maybe I trusted you too much
I'd like to take it all back now
Start over again
Having learned from my mistake

Constantly reminded of you
Everywhere I look I see your face
It's painted on my mind
I'm still lonely
And constantly reminded of you
I just had to let you know

You're all that I wanted
I'm not lying to myself
I'm entrusting somebody else
To make it ok
I want to be there with you
I want to hold onto you
Will you stay with me tonight?
Constantly reminded of you
Everywhere I look I see your face
It's painted on my mind
I'm still lonely
And constantly reminded of you
I just had to let you know

I live in fear constantly
I never know why
I don't even know me

I'm shadow of myself
To be here, constantly
Following me
I'm gonna make it out

Constantly reminded of you
Everywhere I look I see your face
It's painted on my mind
I'm still lonely
And constantly reminded of you
I just had to let you know
Constantly reminded of you
You're painted on my mind
Constantly reminded of you
I just had to let you know

A fading photograph
The one I thought was mine
You're always there, always there
Are you there?
