DEAR DARLING

VERSE 1

I looked out this morning
Dear darling I'm warning you
The road out there's calling me on
No, don't be surprised
If I'm chasing those dreams of mine
Just like I said that I would

VERSE 2

I'm not complaining dear
It's easy remaining here
I love you and I always will
But something inside of me
Wants me to try to be
Something it thinks I can be

VERSE 3

It's something you do to me
A way I've no right to be
Your dreams have all come down to dust
Your charm has enslaved me
I've acted so crazy
I know why you hate me and you must

VERSE 4

But you seemed like a child to me
Guess I'm too wild to be
Loved by a woman like you
And soon some day sometime
You'll lie in the sunshine
And be glad that I left when I did

VERSE 5

I know this of myself

I must have something else
To be loved by a woman like you
Your status, your fortune
These things are important
To give you what you think you deserve

VERSE 6

I never was sure of you
Afraid of my losing you
Your beauty was sometimes a curse
There's nothing to stay for
I swore I'd not take more
So I feel like I have to leave first

VERSE 7

It all seems so strange to me
The things we have tried to be
The games and the roles we have played
You say, "nough said, don't say more,
It's nonsense", but what's more is
I think I've said something today

VERSE 8

And it was only a scratch love
You ain't met your match love
And I guess maybe you never will
So for you there's a bright light
And for me there's a night life
And from here on it all goes downhill
