Clothe yourself well for the wind

After you'd left it was windy everyday  
It was not a thing you could avoid  
Outside people were shouting  
Sideways to one another  
Longing from a great distance  
Must have reached you

Clothe yourself well for the wind  
Clothe yourself well for the wind

We took ourself out of our hands  
We couldn't have explained  
Danger better

Clothe yourself well for the wind

We're running out of everything
