"Little Star"

Visit "[Little Star](#)" on MotoLyrics.com

Little star, so you had to go
You must have wanted him to know
You must have wanted the world to know
Poor little thing and now they know

Little star, I had to close my eyes
There was a fire at the warehouse
They're always waiting for a thing like this
Came travelin' from over town for you, little star

Little star, so you had to go
You must have wanted him to know
You must have wanted the world to know
Poor little thing and now they know

Laudamus, Adoramus Te, Domine
Laudamus, Benedicimus Domine Deus
Laudamus, Benedicimus Domine Deus
Cum Sancto Spiritu in gloria Dei Patris

For you, little star
