Veils of Maya lift
And I see I am always everlasting
My mind is put to rest
For in death no-one dies again
Shiva bathe me in the nectar of the thousand petalled
lotus
Feed me only of Ambrosia
Na Koja Abad, Na Koja Abad
Oh luminous world of non-where
In you I am everywhere
I am one with all things in my time of dying
Ritual eternal

The blue pearl is revealed to me
The nucleus of my energy
I merge with Shakti
Exhilarating
I chant the mantra of Parvati
My secret eyes reveal to me every pore of my luminous
body
When I die I walk into my mind
My destiny lies within me
In death I am the primeval being
My essence is of infinite bliss
A golden hued creatress
I am the bestower of the sublime
I become the circle where the sky meets the ocean
See me everywhere
Yet you will find me nowhere
Ritual eternal

Shakti touched me
I am reeling
Translucent galaxies spiral past me
I am Parvati
The daughter of the highest mountain
Like you I am growing
A passage of time compared to this?
Eternal bliss carries me from this life to the next
Maya explores with me my archaic future endlessly
The great creatress wants my energy
