I'm feeling witchy
Witchy and powerful
I use what I've got and it's more than I need
Ooooh magick beats lift my feet
I'm flying down the street
It's not vicious, just delicious
To be witchy and pernicious
So don't be superstitious
Or you won't know what you're missing

I put a spell on you
Look into my eyes - you know you want to
I put a spell on you
Trust me - what else can you do?

It's enchanting, making magick
Spellbinding is harmonising
Look into my eyes - you know you want to
It's hypnotising - what I could do to you
It's not vicious, just delicious
To be witchy and pernicious
So don't judge a book by its cover
Or you'll get more than you bargained for
