If you'd be my lady friend
Would we find peace at all?
Please come see my better side
I won't be at [Incomprehensible]

Lisa's gone home, my lady friend
But thankful for everything
If I got to know my lady friend
Maybe she would love me

God, I feel just like lady bug
Think I'll fly away, lady bug

Oh, lady bug, she's on her way
Lights my bed and lights my day
But she won't know that I'm the only one, well

I don't wanna be like Elvis
I don't wanna be like Jim
I just wanna be myself right now
I'll be better off than them

God, I feel just like lady bug
Think I'll fly away, lady bug

Lady bug came all the way
Lights my bed and lights my day
But she won't know that I'm the only one

Lady bug was here today
Was on her own and on her way
But she won't know that I'm the only one

'Coz I don't wanna be like Elvis
I don't wanna be like Jim
I just wanna be myself right now
I'll be better off than them

God, I feel just like lady bug
Think I'll fly away, lady bug
