If I can't save you
I'm sure no one will
But I'll never hurt you
If you play along

Hand me the reigns and
I'll steer us through the sunshine
There's only one problem though
Never done this before, never done this before

Hey there, friendly young spaceman
Are they laughing at you?
You know, I can't understand why you don't get along

If you could just see that you're wonderful
They'd think you're wonderful too
I'll sit by your side and I'll help you along

Hey, friendly young spaceman
Just a flash on my radar
Falling from space, man?
I believe in you

Are you the star that I wished upon
Or a flash on my radar?
Hey there, lonely young spaceman
Are you looking for someone?

So, you're still feeling lonely, you're not alone
'Cause we're all passengers here
Trying to make our way home
Trying to make our way home

Hey there, friendly young spaceman
Are they laughing at you?
You know I can't understand why you don't get along

If you could just see that you're wonderful
They'd think you're wonderful too
I'll sit by your side and I'll help you along

Hey, friendly young spaceman

Just a flash on my radar
Falling from space, man
I believe in you

Are you the star that I wished upon
Or a flash on my radar?
Hey there, lonely young spaceman
Are you looking for someone?

Hey, friendly young spaceman
Just a flash on my radar
Falling from space, man
I believe in you

Are you the star that I wished upon
Or a flash on my radar?
Hey there, lonely young spaceman
Are you looking for someone?

Are you looking for someone?
Are you looking for someone?
Are you looking for someone?
Are you looking for someone?

Are you looking for someone?
Are you looking for someone?
Are you looking for someone?
