"We Belong"

Visit "[We Belong](#)" on MotoLyrics.com

If we walk along with peace of mind
would we talk about it
and if our souls have run a long while
would we know about it

wake up now, i want to know
can we erase all the sins we know
cause i would love to love to see that way
but we won't know

and if said you've gone and run away
would we know about it
if all you say was yes im gone
would we know about it

yeahhh

wake up now, i want to know
can we erase the sins we know
cause i would love to see that way
but we wont know

guess we will see
guess we will see

I feel like we belong
don't hide
you wont die
Ease on to be along
to even score
to be alive

wake up now
I want to know
can we erase all the sins we know
cause i would love to see that way
but we won't know
