Like a band without a drummer

That's me without you

Like a year without a summer

That's me without you

Like a king without a country

Like a room without a view

Like an empty gun

Like a fatherless son

That's me without you

Like a ship without a rudder

That's me without you

Like a child without it's mother

That's me without you

Like a story with no ending

Like a foot without a shoe

Like a wasted feast

Like a faithless priest

That's me without you

CHOURS:

Me without you

A pitiful sight

Me without you

It ain't never gonna feel right

Like a war without an enemy

That's me without you

A disease without a remedy

That's me without you

Like a crime without a victim

Like a sleuth without a clue

Like an empty gun

Like a fatherless son

That's me without you

CHORUS

Without You

Without You

Without You (Jesus)

Without You

Without You....
