V1. Tore out my heart and you ran it over  
You never said goodbye  
Crushed it like a can in your landrover  
Why won't you tell me why

Int. You drive away and you don't come back  
My flat heart's lyin in the middle of the race track

Ch. Stop drivin thru my heart  
You ditched me at the mini mart  
Stop drivin thru my heart  
You've gotta finish what you start

V2. You dumped me for the third time yesterday  
And you've got someone new  
I saw you with her and I ran away  
You've got another heart to drive thru

Int.

Ch.

V3. I need a doctor kinda sorta  
What's wrong with me  
He said there's a skidmark on my aorta  
And there's no remedy

Int.

Ch. 2X
