"Play My Game"

Visit "[Play My Game](#)" on MotoLyrics.com

well you can play my game
if you just tell me your name
well you can play me game
but ill put you to shame

i always thought my highest score
when you walked throught that door
i lost the game and your to blame
i could have been in the hall of fame

well you can play my game
if you just tell me your name
well you can play me game
but ill put you to shame(x2)

basketball we dont need a court
just you and me baby full contact sport
and theres no refs to tell us to stop
so we can play until we drop

well you can play my game
if you just tell me your name
well you can play me game
but ill put you to shame(x2)

well you can play my game...HEY
well you can play my game...HEY HEY HEY

ill let you flip my flipper
if you let me unzip your zipper
common lets pretend 10 more rounds
i wanna take you out of bounds

well you can play my game
if you just tell me your name
well you can play me game
but ill put you to shame(x2)
