### **"We Own The Night"**

Visit "[We Own The Night](#)" on [MotoLyrics.com](#)

They can't see us when we walk by  
They're too clean to look you in the eye  
(Run and hide) It's too late for you  
(Stay inside) It's all that you can do  
(Run and hide) They're getting nearer  
(Stay inside) Cause you don't belong here

Sun goes down and we come out  
Cause we own the night (We own the night)  
Surrender to a different power, we own the night

They don't listen, they can't hear the call  
Get their way but only until the night falls  
(Run and hide) It's too late for you  
(Stay inside) It's all that you can do  
(Run and hide) They're getting nearer  
(Stay inside) Cause you don't belong here

Sun goes down and we come out  
Cause we own the night (We own the night)  
Surrender to a different power, we own the night

(We own the night) You don't want us to stay  
They keep us from the light (We own the night)  
They might control the day but you know we own the night

Sun goes down and we come out  
Cause we own the night (We own the night)  
Surrender to a different power, we own the night

You know that we own the night  
You know that we own the night  
You know that we own the night  
You know that we own the night
