Well it's the same thing that i tell everyone
If you wanna get it good you gotta get it well done
Yeah it's steamy hot and there's nothin' to do
So i go down to Huffy's for a BBQ
Sizzlin' heat and it's ready to eat
So come here baby give me some of your meat
El Grullense's where the beef is hot
And the taco boy wants whatever i got

Well done (well done, well done)
You drive me crazy when you turn up the heat
Well done (well done, well done)
You're lookin' good i think i'm ready to eat

Don't try to give me that medium rare
If it ain't hot and hard then i don't even care
You want some of me you gotta give me some first
And if it ain't done right it can't quench my thirst

Well done (well done, well done)
You drive me crazy when you turn up the heat
Well done (well done, well done)
You're lookin' good i think i'm ready to eat

Well done. Well done
