I admit defeat with you tonight  
Cause its cold and I don't want to fight  
I want to speak with you in the dark  
Cause we don't talk like the start  
And the road we know it has been long  
And the cold it won't turn to warm  
And if you leave your heart with me  
Cause we don't talk like  
We don't talk like  
We don't talk like the start

Well I know I must be something  
But I don't know who to be  
This hopelessness surrounds me  
Is it you or is it me  
The hope I had around well I'll leave it all  
beneath  
I'd give the world, the world, the world  
For us to talk like the start  
Cause we don't talk like the start  
No we don't talk at all
