Tell me who "who" is like "is like" our God "our God".

Who can take all your wrong make it right and hold
you in the middle of the night.
When you need a friend to lean on he promise he won't
leave you alone. When you call he will answer call
his name he's the master everything that you need just
believe
Somebody tell me.

Hes a doctor in the sick room,
hes a lawyer in the courtroom.
hes a friend when your friendless tribe of the hours
why don't u try your best hes your water when your
thirsty and hes your bread when your hungry and when
your in trouble u can lean on him there ain't none
