"My Star"

Visit "[My Star](#)" on MotoLyrics.com

here is my star, see she shines in the light of day,
never see her light, here is my star see how she shines,
in the basket sky, i keep her mine,
she keeps making cirles in my head(3x)
at lover's gate, here i stand
no one to hold, to hold my hand here in the cold, see
my star land

CHORUS:

she is this obsession in my life(3x)
(so/and) tell me now
why'd you have to be
why'd you have be so cold
you didn't have to be,
you didn't have to be so cold
i look much older some they say
it feels much colder in this place
it seems so empty,
with out my star i feel no warmth
i raise my hand to meet the light

stared at my star til' i was blind
here is my star is it mine?

so quit this perversion in my mind(3x)
stared at my star, til' i was blind
here is my star is it mine??
