Yeah!

Foul play, the mark of the Devil

You build an empire on the lies that you peddle. (?)

You had your staff, to run your command (?)

Shiver son, the rights have come (?)

There's no one left to cast your spell on

Shave your head!

Build the fire and bring the chains

Come on children, bring the match and start the flame

There's gonna be a fire tonight, we're gonna see a
woman burn

Sit down, enjoy the screams

We're gonna burn the witch!

We're gonna burn the witch!

We're gonna burn the witch!

We're gonna burn the witch!

Burn, burn, burn!

Dirty woman, to return our dirty deeds

The flames are gonna lick around your wizard sleeve

Ill-gotten gaze, can't get you out of trouble

The time has cast, the sentence passed (?)

There's no one left to cast your spell on

Shave your head!

Build the fire and bring the chains

Come on children, bring the match and start the flame

There's gonna be a fire tonight, we're gonna see the
fucker burn

Sit down, enjoy the screams

We're gonna burn the witch!

We're gonna burn the witch!

We're gonna burn the witch!

We're gonna burn the witch!

Burn, burn, burn!
