take it on it's a terrorist trance
got to move the notion out
feel a need for all that they say is dangerous to me
hours to hours and work for our swedish money
got this place you and I

WAIT is all I do
WAIT is all you do

so it seems and so it seems
easily split from our dreams
when stupid takes control
making money of consumer polls
how can we stand up tall?

WAIT is all I do
WAIT is all you do

can you hear what is told to you?
got to scream the motion out
feel a need for all that they say is dangerous to me
hours to hours and place it upon the wall
got this space you and I

WAIT is all I do
WAIT is all you do

so it seems and so it seems
what you say, what you say
when stupid takes control

WAIT is all I do
WAIT is all we do
