Well is come in fits and waivers
Black swarm wallows in the base of her spine she
speaks
Funny little passes at the dead and the incomplete

Say?
What's that, you've got an answer for time
Tick tock tick tock tick tock think of yourself
It's not a sensible failure.

Chrome and blood and finger waving
Shiny little fuckers in their shiny little cars
Buffing up your buddies like you under a microscope
Say?
What's that, you've got an answer for time
Tick tock tick tock tick tock think of yourself
It's not a sensible failure

Baby's got a new toy, in a green purse
Baby's got a new toy, in the back yard
(Back down idiot, back down turn left run right)

Say?
What's that, you've got an answer for time
Tick tock tick tock tick tock think of yourself
It's not a sensible failure

Baby's got a new toy, in a green purse
Baby's got a new toy, in the back yard
