"I Wish I Had A Girl"

I wish I had a girl someone to love me true
I wish I had a sweetheart just like you
Someone to hold me close and never break a vow
And I know that we could get along somehow

We may not have these great big things or money
But please I need someone to love me now
A pretty little thing like you a sweetheart just like you
And I know that we could really get along
[steel]
I've never had a love and life's no good alone
I've never had someone to call my own
And when I'm close to you the whole world seems
brand new
So I know that we could really get along

We may not have these great big things or money...
Yes I know that we could really get along
