I've got to change and to stop my running round
She tried so hard to build me up now I'm on my way
down
She tried to keep me happy all I've cost her was pain
Before all her love has gone I've got to change
Oh how could I blame her if she too should run around
At times that she needs me most I'm in some other
town
She don't deserve the way I treat her and I feel so
ashamed
Before all her love has gone I've got to change
[piano]
Oh how could I blame her...
Before all her love has gone I've got to change
