You were my one look at heaven I was closer than I've  
ever been before  
You were my one look at heaven but you left me just  
outside the door

Around your head there was no halo upon your  
shoulders were no wings  
But to me you'll always be an angel for that's the way I  
see you in my dreams  
You were my one look...  
[ fiddle ]  
This earth was never meant for paradise and you were  
never meant for me  
But you gave me one look at heaven that no one can  
take away from me  
You were my one look...
