"Sweetheart Of The Town"

Visit "[Sweetheart Of The Town](#)" on MotoLyrics.com

Your secret love has known to everybody in this town
No need to try you can't deny the talk that's going
round
You'll meet in secret places when you think no one's
around
People calling you the sweetheart of the town
Would you rather have the name sweetheart instead of
wife
Oh why not be content to tread the wrong way for the
right
The kind of life you're living now I just can't stay around
While they're calling you the sweetheart of the town
[piano]
Infatuation's not the kind of love that we once knew
But that's the kind you hope for him the kind he's
giving you
I'm like a ballhead on a string that you can pull around
While they're calling you the sweetheart of the town
Would you rather have...
While they're calling you the sweetheart of the town
