My eyes have seen you  
My eyes have seen you  
My eyes have seen you  
Stand in your door  
Meet inside  
Show me some more  
Show me some more  
Show me some more

My eyes have seen you  
My eyes have seen you  
My eyes have seen you  
Turn and stare  
Fix your hair  
Move upstairs  
Move upstairs  
Move upstairs

My eyes have seen you  
My eyes have seen you  
My eyes have seen you  
Free from disguise  
Gazing on a city  
Under television skies  
Television skies  
Television skies

My eyes have seen you  
My eyes have seen you  
My eyes have seen you  
Let them photograph your soul  
Memorize your alleys  
On an endless roll  
Endless roll  
Endless roll  
Endless roll
