i'm sorry about your girl
little center of the universe
her axis turns the world
you need to jet to get to her

oh the way she moves
attracts all kinds of focus
from all over the room...

she's not ladylike
(doo doo doo yeah)

she's big
and proud
and she knows what the world is about...

(hey)
what the what is ladylike
if ladies like to do what the what
they like just like you
yeah, just like you
look out, babe, here comes another one
what the what is ladylike
if ladies like to do what the what
they like just like you
yeah, just like you
look out, babe, here comes another one
(doo doo doo yeah)
on my knees
on all fours
from underneath
hear me

what the what is ladylike
if ladies like to do what the what
they like just like you
hey, just like you
look out, Man - Go
what the what is ladylike
if ladies like to do what the what
they like just like you
like you, like you, like you oh

what the what is ladylike
what the what is ladylike
what the what the what the what
what the what the what the what
is ladylike
what the what is ladylike
what the what is ladylike
what the what the what the what
what the what the what the what
is ladylike
(doo doo doo yeah)
