Sitting in my kitchen stuffed from having ate  
What should I do now with what's left on my plate  
Maybe I should save it, but now I got the cash  
Think I'll take the easy way and throw it in the trash

U.S.A. for you okay, what a fucking scam  
Charity begins at home, what about our land?  
America has problems that's what should come first  
Don't look to us for charity to feed and quench your  
thirst

Aren't you hungry?  
Are you still hungry?

Looking for a free buffet, in the alley on the way  
To your meeting at A.A., losers lunch is on today  
Chicken, finger lickin' good, mashed potatoes, gravy  
too  
Razzberry dressing, yum! Don't you wish that you had  
some?

I think of people starving do you think I care?  
Let them all die hungry so I can breathe their air  
I think of people starving do you think I care?  
Let them all die hungry so I can breathe their air

Sitting in my kitchen stuffed from having ate  
What should I do now with what's left on my plate  
Maybe I should save it, but now I got the cash  
Think I'll take the easy way and throw it in the trash
