=====

The atmosphere is breakin up  
Sunlight starts to burn my skin  
Losin weight, but i swell  
Wish i'd die and leave this hell  
Cannot stop, no turning back  
Rays that burn my front and back  
Our solar death that we deserve,  
For being ignorant with our world

WE WILL DIE, WE WILL FRY  
WE NEVER LEARN, SO NOW WE BURN

The time has come to start again,  
But first we all must see the end  
By the hand of God or man  
To oblivion we descend  
I think that this is understood  
Wouldnt stop it if i could  
Time for the human race to die  
And give this world a chance to thrive

WE WILL DIE, WE WILL FRY  
WE NEVER LEARN, SO NOW WE BURN
