From desperation here to motivated there  
I've got ta get some sleep some time this week man  
That old cocaine she's bad, worst love I ever had  
I've got ta get some sleep some time this week man  
Ya go fallin' over  
Cause ya haven't been ta bed in a week  
Ya start ta see' funny like snow comin' down in a heat

Cocaine please go away  
Bye bye bye give me a wave  
I don't see you any more that I can say&

My heart beats violent red, I ain't done nothin' bad  
I've got ta get some sleep some time this week man  
On white hot ashes my friend, my feets been runnin'  
fast  
I've got ta get some sleep some time this week man  
Start ta see' funny like snow comin' down in a heat

Cocaine please go away  
Bye bye bye give me a wave  
I don't see you any more that I can say  
I don't need you any more please go away

Cocaine please go away  
Bye bye bye give me a wave  
I don't see you any more that I can say  
I don't need you any more please go away
