### "Good Enough"

Good enough for someday  
Good enough for me  
Good enough for someone  
Good enough ya see

Been lookin for the words ta tell ya what I'd say  
I'd have to make them up  
And write them down today

Good enough forever  
Good until my grave  
Good enough for after  
Good enough ta save

The nerves are damaged from the blinking  
Of the strobe, and I'm not one to question  
What he done it for

Good enough for something  
Good enough for me  
Good enough for someone  
Good enough ya see

I'm done lookin for the words to tell ya what I'd say  
I'd have ta make them up and write them today  
Write them down to play  
Write them down to say

Good enough for me
