I'll be as lovely as you want
I'll be as lovely as you want
I'll be as lovely...

Many things have happened
As you came into this world.
You deluded me so,
You caressed my glow and you came into my little
world
Made me think that we were one...

You came into my world,
and when you kissed me,
you collapsed me forever
Into this world
when you held me,
We fought windmills together,
and you came into this world,
and you killed me.
Forever, means ever,
into this world.

Repeat the music

You came into my world,
and when you kissed me,
you collapsed me forever
Into this world
when you held me,
We fought windmills together,
and you came into this world.
