He came and changed her life  
And everything she  
She felt inside  
All the moments have  
Have turned to gold  
Have turned to gold  
And she thought  
Oh yes she thought  
He was the one  
All the days  
Have... have run so fast  
To the day  
Oh to the day  
The day he left  
Listen... she's crying at the window  
Listen... she's singing to the angels  
You are a part of me  
You are around me  
Around me  
Listen... listen... she's crying at the window  
Listen... listen... she's singing to the angels  
You are a part of me  
Yes you are  
You are around me  
Around me
