Last check, this sabotage  
As you're waiting for your train  
Couldn't i be more bored now could ya?

Everything is so, so clear  
Inside your head, your heart beats  
Looks so good to all of your imaginary friends

Side step, two-punch, fight it!..tra la la  
You've got the sense You needed!..tra la la  
Your head up higher

I know the surface - it can seem so far away  
But you don't need to hold your breath anymore  
It's crystal, it's so so clear  
Those winning speeches look so great to all of your imaginary friends

Side step, two-punch, fight it!..tra la la  
You've got the sense You needed tra la la

Sidestep, two-punch, fight it!..tra la la  
Your head up higher for now

I know the surface - it can seem so far away  
But you don't need to hold your breath anymore  
It's crystal, it's so so clear  
Those winning speeches looks so great to all of your  
all of your imaginary friends
