[M: Groth, L: Persson]

Picked by the priests, for a holy deed, to purify the land
They travelled far and wide, to visit every town
Cause they say that they are blessed
And have received the gift
To see the witches and the ones who's not

All but lies it's only words out of greed
Money, power, all were given to them

They do not care at all, about the ones they judge
Got no remorse for those, they sentece to death
Cause they say that they are blessed
And have received the gift
To see the witches and the ones who's not

All but lies it's only words out of greed
Money, power, all were given to them

[Solo: Fredrik / Jacob]

Time was on their side
But that soon would be changed
Time was on their side...

All but lies it's only words out of greed
Money, power, all were given to them
