Got another phone call
Tellin me the words
Got another story for me to learn
Say the truth out walkin
Walked right out my door,
I didn't try to follow,
Cause I knew the score

Tell me what you got ta say
I see through you anyway
I think you have underestimated me
And tell me what you got ta say
I see through it anyway
I think you have once again

... Never mind the weather, never mind your head
I know why you're callin on me here today
Things are goin fine now
Yeah all's well I'd say
The one thing that troubles me is
When ya call my name

Tell me what you got ta say
I see through you anyway
I think you have underestimated me
And tell me what you got ta say
I see through it anyway
I think you have once again
