"Methanol"

Visit "[Methanol](#)" on MotoLyrics.com

Check your points ignition timing countdown pressure
Thirty-four pounds when it's cold
Add more and torque it to it's max select
Your drive position light a cigarette
And put the lights on bright and then go

Methanol

Fill with gas and let me check your oil and wipe your
Window shield top off your water's
Boilin grab a drink ta go empty out your ashtray
And hang your loaded dice up
On your rearview mirror and then go

Methanol

Yeah I got about another lap I'm gonna get him
He's leanin over gonna hit the wall a spinnin
He's rollin over into the corner I'm smellin smoke
I think he's burnin up his motor I pass him up
Cause I drove a little smoother
