You're just a child, I entered your mind
and I'm your god when you pray
I don't love you but I know what you do
come on, come on and hear what I say

Feel me, I'm in you
close your eyes and enjoy like I do
you're just one of my
of my pearls, that I get for one night

You are so blind, you're one of the kind who wants to be
loved for the fear
I know what you do when I'm next to you
you just will, you just will scream in my ear

Feel me, I'm in you
close your eyes and enjoy like I do
you're just one of my
of my pearls, that I get for one night
