Expect then delay and expect the worse to happen.
Delaying the outcome contols the risk of crashing out.

(Chorus)

I don'tknow what is wrong, but I know there's
something more to me

What do you want?

What do you want from me?

I know one thing, no one knows me.

I am watching it, I believe in it,

And I know that it is over now, Over now

I am watching it, I believe in it,

And i know that it is over now, Over now

Im sure that when you see, how many time I've fallen

The anchor you tied to me, will keep me down and
drowning out.

(Chorus)

I don'tknow what is wrong, but I know there's
something more to me

What do you want?

What do you want from me?

I know one thing, no one knows me.

I am watching it, I believe in it,

And I know that it is over now, Over now

I am watching it, I believe in it,

And i know that it is over now, Over now

Please can't you see?

I am sick when all the same old shit comes crashing
down on me.

(Repeat 4x)

I am watching it, I believe in it,

And I know that it is over now, Over now
