I like grapes
(Demetri likes grapes)
They taste so delicious (To me)
Whether they're black, purple, white or green
(Demetri likes grapes)
(Delicious!)
I like the juice that comes from inside
(Raisins are okay too)
Grapes seedless is the best
(Raisins are okay too)
Get 'em in a bunch, you always get another chance
(Let's eat them, me and you)
The grapes are delicious
But you have to watch it
Because there are a lot of pesticides on (ya, ya, ya)
And if you don't watch it, you can be in trouble
Otherwise they're very sweet and tasty

I eat grapes (Demetri likes grapes)
They are so nutritious (Grapes)
(To me)
They've got the vitamin C (Demetri likes grapes)
(Delicious!)
I prefer the ones without the seeds
(Raisins are okay too)
I got a hunch (Raisins are okay too)
I'm gonna eat a bunch (Let's eat them, me and you)
Well I like peaches, I like, uh, pineapple (ya, ya, ya)
Almost everything, fruit is the best thing you can eat
Everybody should keep on eating, and love it
Because it's tasty and healthy

When I pick grapes (Demetri likes grapes)
I get so ambitious (To me)
(Grapes)
To see if the whole bunch is yummy (Demetri likes grapes)
(Delicious!)
I know they can't always be (Raisins are okay too)
But each grape (Raisins are okay too)
Is an opportunity (Let's eat them, me and you)

Apricot.. yeah, a specimen in Europe they're..
They're so tasty
Grapes
Grapes

I like grapes
They taste so delicious (To me)
(Demetri likes grapes)
Whether they're black, purple, white or green (Demetri
likes grapes)
(Delicious!)
I like the juice that comes from inside (Grapes)
(Raisins are okay too)
Grapes seedless is the best (Raisins are okay too)
Get em in a bunch, you always get another chance
(Let's eat them, me and you)

What's your favorite fruit?
Peaches
