Come restless sleep
Come and lay me down and ease my worry
Slow my mind and help me
Help me find my release

I am held in the prison cryin'
On my knees prayin' I won't
Die in this moment of grief
Now I'm here and I'm waiting

Won't you come and carry me
High above so I can see
Pick me up out of this haze
And put your arms around me
Come and lift me up so I can be free

Come my escape
'Cause I try to scream I'm hearin' silence
Beggin' someone help me
Help me find my way

'Cause I'm reachin' out in all directions
Believin' that there's some way
I can live in this moment alone
So I'm hear and I'm waiting

Won't you come carry me
High above so I can see
Pick me up out of this haze
And put your arms around me
Come and lift me up so I can be free

So I'm here and I'm waiting

Won't you come carry me
High above so I can see
Pick me up out of this haze
And put your arms around me
Come and lift me up so I can be free
